3. SUSPICIOUS OAK HILL RACCOON

On July 21, "A mangy looking raccoon was on my deck during daylight hours . It walked away aimlessly", at 250 Borden Road. We don't know if this raccoon was sick. However, with the prevalence of rabies this year, we need to keep our distance of such animals. Middletown states: "If you come across a sick or injured animal, keep your distance and please contact Animal Control at 732-615-2097 immediately or contact the Police Department after hours and on weekends."

On July 15, Middletown reported 2 more rabid raccoons (a total of 13 rabid animals this year- although most were more than 1-2 miles from Oak Hill).
