Bring your binoculars. Also bring your tablets and smartphones.

Before arriving, download the "Sky Map" (free) app from "Google Play" (Android devices) or download from the Apple app store.

Enable the "GPS" tracking on your mobile device, and turn "off" cell data service to avoid data charges.

The "Sky Map" rotates as you turn, and magically provides labels for all stars, constellations & planets.

2. TOM TURKEY HAS TAKEN RESIDENCE at the top of Dwight Road where it joins Red Hill Road. The turkey firmly believes that he owns this territory and resents any intrusion on his land. We have seen him several times now, once as he stopped traffic to strut around the street. (Reported 5/9/2014 by OHA member Gil Vatter)
